pg 16-18

# Petersen Manufacturing Company Inc.

## Leisure Division

Petersen Manufacturing Concrete Site Furnishings can provide the strength, flexibility and aesthetic value necessary for commercial or residential projects. Choose from many styles of planters, bollards, tables, trash receptacles and benches. The quality of Petersen Manufacturing concrete site furnishings is unsurpassed in the industry.

Petersen Manufacturing creates concrete site furnishings for world class organizations across the country and around the world. Whether you need just one planter or ash urn for a small operation, or hundreds of tables and waste receptacles to address the needs of larger facilities, we have the right products for your particular need.

Since 1913, our success speaks for itself. We have built our reputation in the craft of precast concrete, steel and GFRC site furnishings which sets us apart from the competition.

Dedicated to quality and craftsmanship, we are pleased to offer our complete lines of steel, precast and GFRC site amenities.

“Expect to be Impressed!”

### MANUFACTURER’S QUALIFICATIONS

Petersen Manufacturing Company Inc. maintains at all times a quality control program as herein outlined so as to insure that all precast meets all requirements as specified under physical requirements. All precast shall be manufactured by skilled workmen who have at least five years experience in similar work and supervised by foremen certified by the ACI.

### MANUFACTURING

All precast work shall be true to dimension and have clean, accurate arises and details faithfully executed. Reinforcing steel shall conform to ASTM 615. All precast work shall have as minimum compressive strength of 5,000 psi at 28 days of age when tested by means of cylinder molds (6x12) from the materials. There shall be a maximum of 4-6% air entrainment for all precast according to ASTM standards.

### MOLDS

The forms for the precast units shall be constructed of laminated metal or fiberglass designed to withstand casting pressures without distortion. All anchors, inserts, bolts, etc. Will be placed and secured in the forms as required for the attachment and handling of the units. These shall be clamped so as to hold them in position during fabrication.

### PHYSICAL CHARACTERISTICS

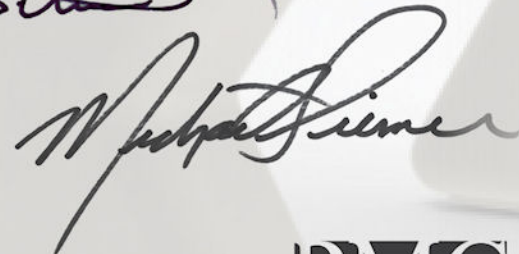

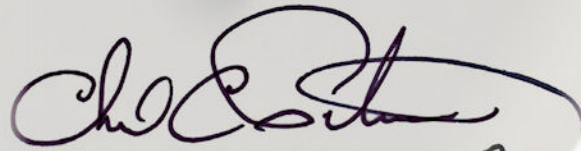

All exposed surfaces are treated to remove the surface matrix and expose the aggregate produced by chemical retardant or sandblasting. All precast shall have the water repellent sealer treatment applied in strict accordance with manufacturer’s specifications. All tolerances shall be within 1/8” of specified dimensions, designed for structural analysis and calculations.

### COLOR

Color to be uniform throughout as approved by owner or specifier in accordance with manufacturer’s recommendations.

### MATERIALS

Portland Cement: ASTM C150 Type 1 or 3. All aggregate to meet ASTM C33 specification.

*Designer Collection*  
**REIGELMAN FOR PETERSEN**

Beginning this June, Petersen Mfg. launches *Reigelman for Petersen*, an exclusive limited edition designer collection that includes a complete line of concrete and metal site furnishings. "Wrap" planter is the first product in this limited collection.

Petersen Manufacturing is a full-service manufacturer of finest quality site amenities. We have the capability and extensive experience in offering turn-key service on your site amenities project, from design to manufacturing, to delivery and installation. Call or e-mail us today for a quote.

Petersen concrete or GFRC waste receptacles offer maximum durability and minimum maintenance. The rugged steel reinforced construction of the concrete waste receptacles makes them an ideal solution for outdoor use. Petersen waste receptacles can be made from a lightweight matrix called GFRC (Glass Fiber Reinforced Concrete) that is 1/3 the weight and is just as durable as concrete. Now you can have the strength and look of concrete indoors and out.
